

AVIVA

HALF MASK RESPIRATOR

PREMIUM PROTECTION

AVIVA HALF MASK RESPIRATOR

The new AVIVA is the next step forward in half mask technology from Scott Safety. Innovative design elements such as a hybrid reflex seal, an easy-to-use positive user seal check mechanism and goggle "pinch" have been integrated into the AVIVA half mask with user comfort and protection in mind. A wide range of filter options makes AVIVA suitable for use in a variety of applications.

- **INNOVATIVE HYBRID REFLEX SEAL**

- Unique among half masks, AVIVA features a hybrid reflex seal around the chin area that flexes with wearer movement. This flexibility makes AVIVA more comfortable to wear and provides for a secure fit on the face, while still being easy to clean.

- **THE PERFECT FIT**

- Scientifically designed to fit a high percentage of the global population in relation to different adult face shapes and sizes.

- **EASY-TO-USE POSITIVE USER SEAL CHECK MECHANISM**

- A simple-to-use positive user seal check device has been built into AVIVA, allowing the user confidence in the integrity of the mask's fit.

- **ENHANCED VOICE INTELLIGIBILITY**

- A specially designed voice panel delivers enhanced voice intelligibility, enabling the wearer to be clearly heard by those around.

- **WIDE RANGE OF FILTER OPTIONS**

- The AVIVA half mask is available for use with the 742 Series Twin Cartridges. This wide filter range means AVIVA is suitable for use in a variety of applications.

Please refer to AVIVA technical datasheet and/or NIOSH approval label for approved configurations before use.

- **READY TO GO PROTECTION**

- AVIVA is available in three sizes and a variety of packaging types including a READY-PAK option for specific applications. For ultimate ease of storage and transportation, the plastic resealable READY-PAK "tub" is available to ensure the AVIVA half mask is always stored and transported correctly.

Comfortable cradle-style head harness

Simple rear fastening for easy donning & doffing

Goggle "pinch" - allows better integration with eyewear

Integrated voice panel, for enhanced voice intelligibility

Multiple filter options allow for use in a variety of environments

742 Series Twin Cartridges

Positive user seal check mechanism - when pressed during exhaling, the mask inflates slightly showing the mask has been donned properly, allowing the user confidence in the integrity of the mask's fit

Downward facing exhale valve provides low breathing resistance and avoids fogging of eyewear

Unique hybrid reflex seal, flexes on the face for increased comfort and fit

KEY FEATURES

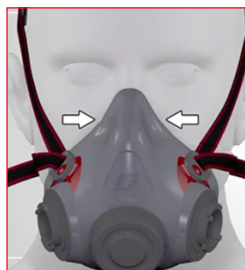

- Hybrid reflex seal absorbs facial movements, maintaining protection
- Easy-to-use positive user seal check mechanism
- Silicone free, with silicone-like comfort, suitable for spray painting applications
- Goggle "pinch" was designed for improved eye PPE integration
- Enhanced voice intelligibility
- Comfortable, durable head cradle suitable for use underneath head protection
- Wide assortment of filters available to suit most requirements including:
 - Particulate
 - Gas
 - Combination
- READY-PAK option for clean storage and easy transportation
- Designed to fit a high percentage of adult face shapes & sizes

REASSURINGLY SAFE.

AVIVA has been designed with the safety and comfort of the wearer in mind.
