

AVIVA

HALF MASK RESPIRATOR

The new AVIVA half mask is the next step forward in half mask technology from Scott Safety. Innovative design elements such as a hybrid reflex seal, an easy-to-use positive user seal check mechanism and goggle "pinch" have been integrated into the AVIVA half mask, with user comfort and protection in mind. A wide range of filter options makes AVIVA suitable for use in a variety of applications.

PRODUCT HIGHLIGHTS

- Twin filter half mask utilizing the 742 Series range of cartridges
- Hybrid reflex seal absorbs facial movements, maintaining protection
- Easy-to-use positive user seal check mechanism
- Goggle "pinch" was designed for improved eye PPE integration
- Integrated speech panel for enhanced voice intelligibility
- Comfortable, durable head cradle suitable for use underneath headwear
- READY-PAK option for clean storage and easy transportation
- Designed to fit a high percentage of adult face shapes & sizes

SCOTT
SAFETY

AVIVA

HALF MASK RESPIRATOR

Simple rear fastening for easy donning & doffing

Comfortable cradle-style head harness

Goggle "pinch" - allows better integration with eyewear

Multiple filter options allow for use in a variety of environments

742 Series
Twin
Cartridges

Integrated voice panel, for enhanced voice intelligibility

Positive user seal check mechanism - when pressed during exhaling, the mask inflates slightly showing the mask has been donned properly, allowing the user confidence in the integrity of the mask's fit

Unique hybrid reflex seal, flexes on the face for increased comfort and fit

Downward facing exhale valve provides low breathing resistance and avoids fogging of eyewear
