Cart Pump

- | Deliver water by placing the intake hose/strainer into a lake, pond, swimming pool etc.
- | The Cart Pump can deliver a fast fire fighting stream of **70 GPM @ 10PSI, 65 GPM @ 50 PSI, 45 GPM @ 100 PSI, and 35 GPM @ 125 PSI** in difficult to access areas, as well as aid with drafting and water re-supply operations.
- | A useful piece of equipment for fire departments, industrial fire brigades, and even residential use, commercial marinas and more.

We build our Skid Units with only the best components available on the market. Our Skid Units are built with many standard features and a multitude of options to choose from to customize your own unit. Finally, every single skid unit is inspected and tested to make sure the product you receive meets your expectations.

- | CET designs, engineers and manufactures our skid units from the ground up
- | Customizable to meet your needs
- | ISO 9001 Certified
- | Know-How + Dependability + Efficiency = solid product at an affordable price.

Econo Pac Simple to operate, great for ranchers, farmers, homeowners in wild land interface areas and smaller fire agency vehicles.

Quick Skid Un

MANUFACTURING

NO HYDRANTS, NO PROBLEM

A large, black skid unit with a red fire hose reel and a red pump assembly. It is shown against a background of intense orange and yellow flames, emphasizing its use in firefighting.

Ready Pac Features popular 6hp-Twin pump and is similar to Attack Pac, but without Booster Reel. Great for urban interface firefighting... car fires, dumpster fires and small room & contents fires.

Attack Pac Sets the standard for Skid Unit mobile fire attack for firefighting agencies in more than 44 countries.

Forest Pac Great for Wild and Forestry fire fighting with larger capacity NFPA tank.

Skeeter Space Pac Small and nimble, great for firefighting/EMS use on ATV and UTV vehicles when navigating through large crowds of people at events, or in remote areas where pick-up size trucks are too big to go through.

BRUSH TRUCKS

BRUSH TRUCKS & QUICK ATTACK UNITS

- Solid / Affordable / Practical
- Available in Polybody or aluminum
- Customized & standard designs available

No two CET Brush Trucks are exactly alike because no two fire departments are exactly alike. Highly customizable-CET makes our trucks to meet your fire departments specific needs.

MANUFACTURING

NO HYDRANTS, NO PROBLEM

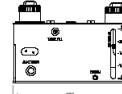

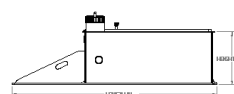

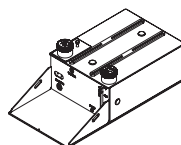

CET builds our own water tanks to NFPA standards ranging in size from 50 gallons to 2,000 gallons . CET also custom builds tanks for OEM fire truck manufacturers worldwide.

STANDARD TANK HEIGHT				
CAPACITY \ LENGTH	96"	78"	76"	72"
150	15 1/2	21 1/4	21 3/4	23 3/4
200	20	27 1/2	28 1/4	33 1/4
225	22 1/4			
250	24 3/4	34		
300	29 1/4			
400	38			
500	46 7/8			

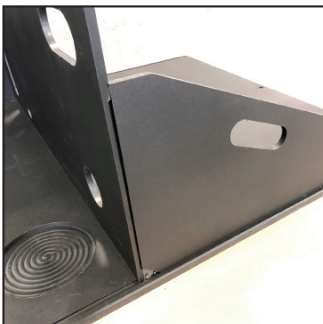

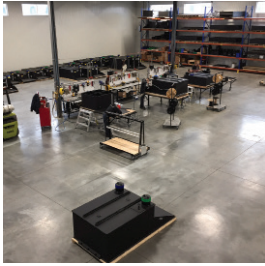

- | Separate and distinct foam cells
- | Cuts down divided warranty responsibility between component suppliers who build only tanks
- | Tongue and Groove construction for better fit and finish
- | All tanks spark tested before shipment
- | Top and bottom tank gauges for quality assurance when final assembly and welding are complete
- | Foam outlet manifolds are assembled in the bottom of the foam tank for better gravity feed to proportioner(s)
- | Take advantage of the innovative storage features now standard options
- | Quality Control ISO 9001 Company

QUALITY BUILT WATER TANKS

LIMITED LIFETIME WARRANTY

Know-How + Dependability + Efficiency = Solid products at affordable prices.

Sumps. Standard in all CET skid tanks

High speed CNC part production for quality form fit, finish and seal.

Exclusive "tongue and groove" sheet assembly for that Go-No-Go fit.

CUSTOM BUILT **FOAM** TRAILERS

CET Fire Pumps manufactures a variety of foam trailers from 150 to 2,000 gallons. These versatile trailers are ideal for use in industrial, commercial, municipal and forestry environments. Foam trailers provide a very effective tool for airport fuel storage and power plant installations.

- | Completely designed, engineered and manufactured by CET craftsmen
- | ISO 9001 Certification
- | Customizable to your specific needs
- | Know-How + Dependability + Efficiency = solid product at an affordable price.
- | Class A Foam and Class B Foam increases efficiency and conservation of water supply

**500 Gallons
Foam Trailer**

**1000 Gallons
Foam Trailer**

**1000 Gallons
Re-supply Foam Trailer**

**A & B Foam Trailers
with Two Monitors**

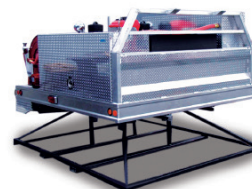

**Single Tote
Foam Trailer**

**Dual Tote
Foam Trailer**

CUSTOM FLAT-BED GLIDER KITS

CET manufactures portable pumps, skid units, brush trucks and more to allow fire departments to Adapt, Improve & Extinguish fire in almost any scenario where hydrants are scarce and static water resources maybe all you have to work with. CET- Providing fire ground solutions since 1908

Advantages of A CET Glider Kit

- | The Glider Kit package can be installed on a cab and chassis with supplied "U" bolts, Teflon "Dielectric" pads and brackets. This design allows the body and flatbed to withstand greater levels of stress that can distort other commercial style flat-beds. A truly "OFF ROAD" flatbed!
- | A modular design allows removal from the chassis for major repair or mounting on a new chassis.
- | Perfect for fire departments that have their own chassis
- | Components are pre-assembled, pre-plumbed, pre-wired, and shipped to the OEM in a self-contained, tested unit.
- | Perfect for OEM's, reduces "bay-time" as the CET Glider Kit can be installed in 24-48 hours. Mount, attach 4 "U" bolts, connect electrical and go fight fire
