
FDXL200
Structural Firefighting Boots
Fire Dex

OVERVIEW

- Certified to NFPA 1970
- Made in the USA with globally sourced components
- Made without intentionally added PFAS
- Built with premium materials
- Engineered for comfort and durability

BUILT FOR PERFORMANCE ON THE FIREGROUND

Ultimate Moisture Protection

- GORE-TEX® CROSSTECH® footwear fabric
- Made without intentionally added PFAS
- Provides protection without sacrificing breathability

Mobility Matters

- Strategic flex points at the ankles for improved range of motion during climbing, crawling, and navigating the fireground

Extreme Durability

- Premium top grain firefighter leather + Flamestop® leather
- Life-Shield™ treatment for waterproofing + easy cleaning

BUILT FOR PERFORMANCE ON THE FIREGROUND

Traction You Can Count On

- Vibram® FIRE & ICE sole
  - Slip resistance in hot & cold conditions
  - Shock-absorbing design reduces fatigue
- 3D molded rubber toe for added grip + protection

Faster Donning & Doffing

- Reinforced structure stands upright
- Integrated pull handles (no failure-prone straps)
  - Easy grip—even with gloves

INTEGRATED PULL-ON LOOPS VS SEWN ON STRAPS

- Unlikely to tear or break off
- Doesn't add bulk under the pant leg
- No snagging or discomfort

SEAMLESS INTEGRATION

Added Comfort

- 3-layer nano-print sock liner
  - Moisture-wicking + antimicrobial
  - Memory foam for custom fit
  - Removable + washable
- Additional gel insoles for cushioning

Inclusive Sizing

- Men's: 4–16 (medium, wide, extra wide, half sizes)
- Women's: 5–11 (half sizes included)
- Built using Brannock sizing

COMPREHENSIVE PROTECTION SYSTEM

- **Composite Toe**
  - Provides lightweight, non-conductive toe protection
- **Puncture-Resistant Barrier**
  - Provides protection while allowing for reduced fatigue
  - Supports greater movement, flexibility, and comfort
- **Triple Ridge Steel Ladder Shank**
  - Adds comfort and stability on ladder rungs
- **3M™ Scotchlite™ Reflective Trim**
  - Enhances visibility in low-light and hazardous conditions

Performance You Can Prove

GORE-TEX® CROSSTECH® footwear fabric exceeds NFPA performance requirements for durability, leakage resistance, and breathability

- 500,000 wet flex cycles for long-term durability
- Leakage testing with 60 minutes in a centrifuge at 30G force
- Enhanced breathability testing beyond standard requirements

TESTED BEYOND THE STANDARD
