

# SITEMASTER®

**At 4.5 lbs.**—SiteMaster is easy to control for both heavy and light duty work

**Tough:** stands up to very heavy duty tasks—can breach a roof, unzip a windshield, break up concrete blocks, blow through brush, saplings...

**Dependable:** will flex under heavy load and spring back to original shape

**Ergonomic** blade proportion with optimal working shape

Retains integrity, ready for work, under all usual hardworking conditions

**13 cutting edges** are designed to maximize efficiency and safety

**Severing axe blade** for cutting roots—no loss of work momentum while reaching for separate tool

**Handle length:** at 43" provides longer reach

**Overstrike sleeve:** absorbs shock, heat resistant

Axe boot: safely stores on handle

Tool stands upright, conveniently—no constant bending to pick it up
