WE SIMPLY BLOCK FIRE

## CAR STANDARD

### RAPID RESPONSE. RELIABLE PROTECTION.

Purpose-built for firefighters and first responders, the Car Standard Fire Blanket quickly isolates fires and toxic smoke in both conventional and electric vehicles. Ideal for use in auto workshops, car dealerships, parking garages, charging stations, ferries, and tunnels.

#### Key Benefits

- Controls vehicle fires within seconds
- Reusable for up to 10 vehicle fires
- Isolates electric vehicle fires effectively
- Immediately contains toxic gases and smoke, reducing carcinogen exposure
- Compatible with standard vehicles, SUVs, and larger vehicles such as trucks
- Effective on small fires as well as full vehicle fires, offering versatile response

#### Product Features

- Red center stripe for easier deployment
- Red and yellow handles for improved usability
- Red center markings on both sides for quick orientation
- Reinforced with eyelets every meter for use as a fire sail
- Delivered in a compact, portable smartbag
- NFPA 701-2019
- EN ISO 1182
- EN ISO 1716
- EN 13501-1: Reaction to fire classification A1
- Surface and volume resistivity in accordance with ASTM D257
- Temperature performance and reusability assessment at RISE Fire Research AS

#### Smartbag:

Included with every blanket for safe storage, easy transport, and long-term usability.

- Airtight
- Equipped with shoulder straps and handles for easy transport
- Includes instruction manual in four languages
- Comes with a repair kit for patching holes caused by sharp objects
- EN 60529: 1991 (Conformity with IP65)

#### Size/Weight Car Standard:

± 6 × 8 m Weight ± 28 kg  
± 19.8 × 26 ft Weight ± 61.7 lb

#### Size/Weight Car Standard XL:

± 7,5 × 10 m Weight ± 38 kg  
± 24.6 × 32.8 ft Weight ± 83.78 lb
