

FIRST RESPONDERS

SURVIVAL ARMOR®

IT'S ALL ABOUT SURVIVAL...

Survival Armor® Fire/EMS lineup is designed to address the rapidly evolving needs of today's First Responders. Some studies show that between 57-93% of EMS providers will experience work related personal physical violence at least once in their careers. With 25% of all EMS injuries resulting from violence and with violence being the cause of at least 8% of all EMS work related deaths*, it's easy to see that our First Responders deserve the best protection they can get. If you are an EMT, Paramedic, or Firefighter; Survival Armor has purpose-built solutions to protect you from both gunfire and blunt force trauma.

Whether your agency is looking for individual armor for full time wear or vehicle-based team armor for mass casualty response, Survival Armor has a solution. Appearance and ease of identification are significant factors in reducing incidents of violence against our First Responders* and as such, Survival armor offers multiple color options for our EMS products outside of basic black that clearly identify you as a Non-Law Enforcement First Responder. With multiple NFPA 1500/3000 NIJ approved ballistic packages to fit any requirement, budget, or even special threats, we can custom tailor a ballistic solution to meet your unique needs.

INTRODUCING THE "THREAT VEST" DESIGNED BY SURVIVAL ARMOR® TO ADDRESS THE RAPIDLY EVOLVING NEEDS OF TODAY'S FIRST RESPONDERS
