FOR THOSE WHO WORK ON THE WATER

As the mission profiles of our Military and Professional users continue to become ever more challenging and complex, the Zodiac Milpro Group continues to innovate and develop new platforms to make those missions successful.

We continue to listen to the evolving needs of our customers to introduce new hull designs, new features, and new accessories under our worldwide recognized brands Zodiac Hurricane™, Zodiac Milpro™, Hurricane™ and Milpro™. Performance, transportability, all-weather seakeeping, accessories and maintenance are the key drivers supporting the evolution of our range of Inflatable and Semi Rigid boats.

Headquartered in France, present in Canada, in the United States of America, in the United Kingdom, in Spain, Italy, Singapore and Australia, we are bringing our teams, our network, our partners and our products closer to “Those who work on the water”.

Marc Lavorata, **CEO of Zodiac Milpro**

OUR GLOBAL PRESENCE

Zodiac Milpro has more than 20, 000 boats in daily use with over 80 military forces and professional users across the globe. Zodiac Milpro's global network and trained specialists are present in most parts of the world where they are ready to give assistance and support to our products and customers on demand. Zodiac Milpro has subsidiaries with offices in Canada, USA, Australia, Spain, United Kingdom, Italy, France and Singapore as well as distributors worldwide who are all available to support your most specific requirements.

Milpro™ Training: A global organization to support maintenance and training worldwide

A global organization to support maintenance and training worldwide Zodiac Milpro has developed a network of authorized Maintenance Service Centers (MSC) for military and professional customers. MSC personnel are regularly trained and certified by our technical specialists. MSC provide proprietary repair techniques to ensure a boat's operational readiness throughout its working life anywhere in the world.

OUR HISTORY

1896: Creation of Zodiac, dirigible manufacturer.

1945: First inflatable boat by Zodiac.

1971: Presentation of the first RIB (Rigid Inflatable Boat) by AVON at the London boat show.

1983: Creation of HURRICANE™ technologies in Canada.

1990: Zodiac Milpro becomes a business unit within the Zodiac Group dedicated to serving the most demanding military and professional customers.

2008: Zodiac Milpro introduces the MACH II Hull, the first stepped hull on the RIB market.

2013: Zodiac Milpro introduces its patented Hybrid tube on ECUME RIBs.

As a French stand-alone group headquartered in Paris, Zodiac Milpro has more than 100 years of technical heritage and sets the standards for military and professional inflatable and semi-rigid craft.

Heavy Duty

HEAVY DUTY - HD

Designed for extreme environments and heavy loads, Zodiac Milpro™ **Heavy Duty** inflatables are foldable, easy to store and transport. **HD boats** can carry payloads up to 4 tons with excellent maneuverability and speed, whether they transport passengers or equipment.

The **HD Cruising** variant has been further adapted to the needs of ecotourism, whale watching and cruise companies with modifications to enhance passenger comfort and easy launch and recovery from cruise liners.

- Futura hull shape
- Heavy duty **DURATANE™** fabric and large buoyancy tube
- Aluminium floorboard
- Heavy duty transom
- Intercommunication valves
- Customizable

MULTIROLE SOLUTIONS - GR

Zodiac Milpro™'s reputation as an inflatable boat maker was built in the success of the **Grand Raid™**. This classic design has stood the test of time, and continues to be the backbone of many police, lifesaving and professional user's fleets worldwide.

- From 3.80 to 4.70 meters long
- Highly resistant **DURATANE™** fabric
- Intercommunication valves

Grand Raid®

"For those who work in the surf."
Tom Parry, **2x inflatable rescue boat world champion**

Emergency Response boat

EMERGENCY RESPONSE - ERB

Designed to meet the specific requirements of inland search and rescue organizations the **Emergency Response Boats (ERB) range** go from storage bag to ready for use in three minutes thanks to their fast-inflation kit.

ERB boats provide a fast response, lightweight and safe solution for urgent and critical lifesaving operations.

- From 3.10 to 4.00 meters long
- Fast inflation kit
- Multiple floorboard possibilities
- Intercommunication valves
- Highly resistant **DURATANE™** fabric

SHORE RESCUE OPERATIONS - ZMSR

Dedicated to surf lifesaving and inshore search and rescue organizations, the **ZMSR** is extremely maneuverable and lightweight. The design of the **ZMSR** hull and bow makes it particularly effective tackling breaking waves and highly stable in sea spray and backwash.

- Surf rescue dedicated accessories
- GRP floorboard
- Highly resistant **DURATANE™** fabric

SEA RIB™: RIGID INFLATABLE BOATS

SRA-650

SRR-870

SRMN-600

SEA RIB RANGE ALUMINIUM / GRP

In 1971, Zodiac Milpro introduced the first commercial **RIB** (Rigid Inflatable Boat) through its ex subsidiary Avon. Zodiac Milpro™ military and professional boats are now well-recognized to be versatile, efficient and extremely reliable.

The **SEA RIB™** Aluminium (SRA) takes advantage of Zodiac Milpro's long experience in manufacturing aluminium RIBs, and builds on the successes of the worldwide-operated Glass-Reinforced Plastic (GRP) range composed of SEA RIB™ Responders™, SEA RIB™ Marine and Navy and SEA RIB™.

Whether they prefer **Aluminium** or **GRP** our customers will find in the Zodiac Milpro™ range the solution adapted to their uses with boats sizing from 4 to 12 meters.

SEA RIB RANGE - SRA ALUMINIUM

MULTI PURPOSE SEA RIB™ ALUMINIUM

Developed by Zodiac Milpro™ for Navies and Military units, Firefighting and Life Saving organizations, the **SRA** has been proven in extreme conditions and various environments from the ice of the Baltic sea to the heat of the Arabian Gulf.

The versatile deck track system makes countless deck configurations possible, with quick and easy reconfiguration for different missions.

The D-shape tube fitted as standard, and long list of optional equipment including gun-mounts, cranes, T-Tops, foam collars, dive doors and other unique features make the **SRA** the perfect boat for varied working and operational environments.

Aluminium-hull rigid inflatable platform with modular construction available in sizes from 6m to 10m, with various propulsion types.

SRA-750

SRA-750

SRA-750

SRA-750

SEA RIB RANGE - SRR GRP

MULTI PURPOSE SEA RIB™ GRP

Developed to meet the needs of professional and military units for day-to-day missions, **SRR** (SEA RIB RESPONDERS™) provide a large choice of layout configurations for multiple applications.

The **SRR boats** combine a reinforced GRP hull with a slide-on collar, integrated fuel tanks and self-draining deck as well as stowage lockers to ensure operators the maximum reliability and effectiveness in all sea conditions.

The **SRMN** (SEA RIB™ Marine & Navy) and **SR** (SEA RIB™) boats are world renowned as the original RIBs: tough, simple and functional, some models can be fitted with the DURARIB™ solid foam collar or with in-board diesel engines and jet drive.

ZODIAC HURRICANE™ RIB

CRITICAL MISSION SOLUTIONS

When the world's most demanding users are called on to complete the most arduous missions in the worst possible conditions; the boat they choose is the **Zodiac HURRICANE™**.

Zodiac HURRICANE™ have led the RIB market for more than 30 years in quality, innovation and versatility; offering a range of modular and effective platforms for multiple mission profiles and users: Special Forces, Search and Rescue, Offshore industry or even exclusive Yacht tenders.

Considered the most exclusive RIB in the world, **Zodiac HURRICANE™** boats are unique solutions tailored to perfectly meet your needs: we work with you and your unique requirements to optimise the size, design, equipment, and accessories of your bespoke **Zodiac HURRICANE™** solution.

Built for extreme conditions, **Zodiac HURRICANE™** RIBs are designed by highly skilled engineers and built by experienced technicians to be capable of operating in the roughest sea conditions.

CUSTOM HURRICANE™ FOR THE MOST DEMANDING USERS

Multimission RIB:

- Troop Deployment
- On Scene command
- Weapon fire & support
- Diver & Mini sub deployment
- Ship boarding & assault
- Futura commando boat deployment platform
- Air / ship / road deployable & transportable

We routinely develop custom solutions to meet a specific need. With sizes ranging from 20 to 45 feet (6 to 14 meters) in length and dozens of unique HURRICANE™ components, we can customize boats to perfectly fit a mission profile.

- Twin stern drive propulsion system

Removable weapon mounts

Deck track for easy re-configuration

MACH II HULL

A leap forward in high-speed hull design; the **Zodiac HURRICANE™ MACH II** (Military Air Channeled Hull II) is designed to offer a high speed, fully versatile platform that is at ease in all activities and all sea conditions. The patented **MACH II hull** design reduces resistance and enhances directional stability for increased speed, fuel economy and safety.

The **MACH II hull** design is available with inflatable or DURARIB foam collar combined to hybrid, D-Shape or classical round tube shape.

Hybrid Tube shape

HURRICANE™ RESEARCH & DEVELOPMENT

From the first inflatable boats in the 1920's, to the development of the RIB in the 1960's through to the game-changing MACH II hull concept; Zodiac Milpro™ and **Zodiac HURRICANE™** continue to pioneer new concepts that give our customers the extra edge they need.

All **Zodiac HURRICANE™** boats can be built according to the relevant EU, ABYC, USCG, SOLAS, etc. as well as other similar standards. Our company is also proud to be ISO 9001:2008, CSA W47.2 Div2 and Div3 certified, which requires that we maintain a strict program of Quality Assurance and Controls.

DEMANDING CUSTOMERS

"I worked intensively with French DGA over 1 year to qualify the Airdrop of the new French Commando RIB. The result is the ECUME the ultimate multi mission RIB for SF application."

Bruno Marion, **Former French Special Force**

Airdrop Kit

SPECIAL TECHNIQUES

A FULLY CUSTOMIZABLE SOLUTION

Zodiac HURRICANE™ teams of designers, craftspeople and experienced operators work to take a basic bareboat design to a high end customized solution integrating the ultimate in boat technology.

MISSION CAPABILITIES:

- Air Drop: Proven ability to integrate boats for airdrop in collaboration with a variety of aircraft and parachute system OEMs.
- Air transport: Reinforced lifting points compliant with STANAG 3542 air transport regulations.
- Reconfigurable multi-mission ship or shore based platform for troop deployment; sea assault; on scene command; FC boat, kayak or minisub deployment, or fire support.
- ISTAR / C3i equipment integration: radars / IR Cameras / Satellite uplinks / Laser Rangefinder, TD / ...

CONSULTING

Your mission success is our guideline. We provide consultation services to professional and military customers who want to create, or expand their activities in the professional or military maritime related sectors. Our experts will help you build your teams, choose your equipment, determine procedures and manage your new activity and Techniques.

- Creation and optimization of operational units
- Assessment of mission, organization and technical requirement
- Diversification in the maritime sector

TRAINING

Our training is delivered through standard MILPRO™ programs and is adapted to users' needs. Programs are managed by an expert training team whose members gained their experience through years spent with the maritime and offshore industry, military and special forces, coast guards and law enforcement organizations.

- Learning basic techniques
- Refinement of advanced techniques
- Training in special techniques

INTEGRATED LOGISTIC SUPPORT: ILS

Designed to maximize the customer's fleet readiness, our Integrated Logistic Support solutions increase organization and team efficiency while reducing maintenance and operating costs.

- Maintenance cost optimization
- Lifespan maximization
- Increased operational readiness
