BH-20

BATTERY POWERED PPV

Up Your Game

The BH-20 is an Ergonomically Designed, Compact, Ultra-Portable Blower with Outrageous Performance.

The compactness, instant availability of battery power and integrated charging brings a convenience unseen by any other fan.

Highly Mobile: Starts instantly on battery power, making AC outlets optional.

✓ 47 lbs/21 kg base weight, 59 lbs/27kg with optional battery.

✓ Quick and easy positioning in hard-to-reach places, works from 6 to 20 feet from doorway.

Blows Harder: Jet Stream Design builds higher pressure to drive ventilation in real-world conditions.

✓ Builds pressure to move air like most **15,000 CFM (25,500 m3/h)** rated fans, in a much smaller package.

Compact: Two BH-20s fit in the space of one comparable PPV, 24x24x10-in (61x61x25.4-cm)

Stable Power: Automatic Switching between AC Power and battery.

✓ GFCI Compliant, 7 Amps While Running/3.5 Amps Charging on 110 VAC.

✓ Easily charges from 110-220 VAC shore line with on-board charging.

DIMENSIONS: 24x24x10-in (61x61x25.4-cm)

BATTERY: LiFePO4, 30-180 MIN.

CAPACITY: 10,200 CFM (17,340 m3/h)

WEIGHT: 47 lbs, 59 lbs WITH BATTERY

21 kg, 27 kg WITH BATTERY

POWER: 110 VAC - 7A Run, 3.5A Charge

220 VAC - 3.5A Run, 2A Charge

IP RATING: IP66, DUST / WATER RESISTANT
