Great Reasons to Choose MSA Cairns[®] Helmets

We've been proudly manufacturing fire helmets since 1836. And to this day when it comes to head protection, more first responders trust MSA Cairns brand fire helmets than any other. Here are just a few reasons why:

1 Shell Release System (SRS)

The MSA Cairns Shell Release System (SRS) helps to protect against impact and heat—even when your helmet is dislodged from your head. With the SRS, if your helmet comes off due to extenuating circumstances—such as a fall through a floor or roof, the impact cap is designed to separate from the helmet shell, **but remain on your head.**

2 Retractable MSA Cairns Defender[®] Visor

North America's first (and still the best) NFPA 1971 and ANSI/ISEA Z87.1 impact-rated, integral visor. The Defender Visor was designed with firefighters in mind: stowing away when not in use, deployed with gloved hands, and easily replaced. Replacement of the lens does not require special tools or disassembly of the helmet. All of these benefits make the Defender Visor the best-selling firefighting eye protection in the market.

3 Best In Class

In a recent survey of firefighters across the nation¹, the majority listed MSA Cairns brand as “best in class.” When you consider the combined effectiveness of our SRS, crumple-zone front holder, impact cap, and suspension—our fire helmets offer the most complete package on the market.

4 Soft Good Kits and Replaceable Chin Straps

In 2018, MSA Cairns led the industry by offering removable and replaceable soft goods for all structural firefighting helmets, including soft good kits for easy cleaning. Toolless removable chin straps are now standard on all MSA Cairns Fire Helmets.

5 MSA Cairns 10-Year Lifetime Warranty

MSA Cairns offers a 10-year lifetime warranty that the product will be free from defects in materials and/or faulty workmanship². When you factor in the quality, ease of maintenance, and unique safety features found **ONLY** in MSA Cairns Helmets, it's easy to see why firefighters are fiercely loyal to the MSA Cairns brand.

6 Same Day Shipping on Our Most Popular Items

When you can't afford to wait another day, MSA offers our most popular Cairns products in our Stock-Order-Ship (SOS) program. For these products, if your order is entered by 2:30 PM (EST), the product ships the same day from our warehouse in Pittsburgh, PA. Look for the SOS symbol  beside products in the program. Remember, too, you can always order customized Cairns Fire Helmets through Assemble-to-Order (ATO). ATO forms are on every fire helmet page on MSASafety.com.

¹Fire helmet brand assessment study conducted by an outside research firm for MSA.

²For MSA Cairns Fire Helmet Warranty details, please see www.MSAsafety.com. 10-year warranty applies to helmets manufactured on or after 1/1/2015. Limitations apply.

MSA Cairns Fire & Rescue Helmets

Key Safety Features

MSA Cairns Shell Release System (SRS)

Available on 1010, 1044, 660C and 664.

The MSA Cairns Shell Release System is designed to provide a second level of protection if your helmet is struck by a collapsing structure, or caught during a fall through a floor or roof.

MSA Cairns ARFF Proximity System

- Consists of an aluminized bonnet and shroud as well as a 6" gold-coated face shield
- NFPA-1971 compliant for proximity use
- Does not interfere with your SCBA
- Easy to use
- Available on 1010*, 1044*, 660C and 664

**Compliant without front holder*

MSA Cairns Defender Visor

The original integrated, retractable eye protection.

- Our most popular eye protection option
- Meets NFPA 1971 and ANSI/ISEA Z87.1
- Stores inside your helmet so it:
 - deploys and stows easily
 - stays protected from heat and debris when not in use
 - doesn't block your front piece
 - never gets lost or misplaced
- Features a quick-disconnect system so you can easily maintain or change out lenses without tools
- Fits most firefighters, even with glasses
- Available on 1010, 1044, 660C, 664 and HP3
- Available as a user-upgrade kit for the same helmets (see page 54)

MSA Cairns Leather Helmets

Quality Craftsmanship

We've been making fire helmets for nearly 200 years—that's more than double most other fire helmet manufacturers. Since 1836, MSA Cairns leather fire helmets have retained the same authentic look and quality firefighters for generation after generation have relied on. Each helmet is individually handcrafted and ready to provide years of dependable service. MSA Cairns Leather Fire Helmets are the iconic symbol of pride in the fire service.

Hand-shaped

Hand-stitched

Hand-trimmed

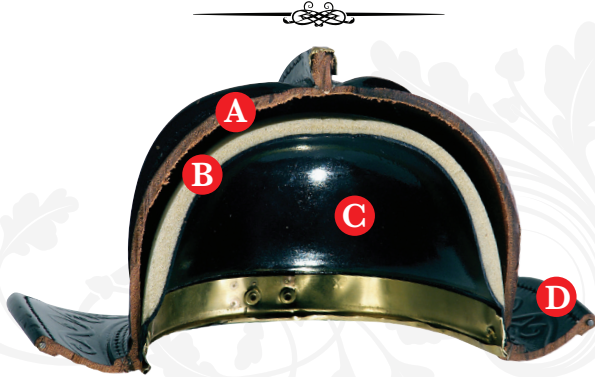

MSA Cairns Leather Helmets

Handcrafted with Meticulous Detail

- The New Yorker N5A and Houston N6A shells are hand-constructed of 100% top-grain steer hide¹ and impregnated with a natural resin system, which is sealed and over-coated with a colored high-luster finish.
- The crown is hand-sewn to the one-piece brim section. Showing attention to detail in every stitch, the brim is embossed with the Original fire service vine pattern.

- The thermal impact liner is then installed within the leather crown. The thermal impact liner dramatically increases the levels of protection where you need it most.
- The Cairns six-way overhead strap suspension system reduces shock transmission while providing a deep, comfortable fit.
- Removable/washable soft goods are standard on every MSA Cairns Leather Fire Helmet².

N5A New Yorker Cut-Away

- A** 100% top-grain steer hide
- B** High temperature-resistant urethane foam
- C** ABS inner liner
- D** Sewn-over wire reinforcement

N6A Houston Cut-Away

- A** 100% top-grain steer hide
- B** High temperature-resistant urethane foam
- C** Lexan outer dome
- D** ABS inner liner
- E** Sewn-over wire reinforcement

MSA Cairns Leather Helmet: 10-Year Warranty

MSA Cairns Helmets, especially leather helmets, have the reputation of being the most durable products on the market. When you factor in the quality, ease of maintenance and unique safety features found ONLY in MSA Cairns Helmets, it's easy to see why firefighters are loyal to the MSA Cairns brand.

A Growing Legacy

Even an icon like an MSA Cairns Leather Fire Helmet can be further elevated. MSA continues to innovate the leather fire helmet product line, while preserving the legacy and focusing on safety.

NFPA-compliant Bourkes

Combining the traditional look of Bourkes that were invented in the 1960s with modern materials, the NFPA compliant Bourkes satisfy the eye/face protection requirements as prescribed by NFPA-1971:2018, Standard on Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting. In addition to being compliant to NFPA-1971:2018, the NFPA-compliant Bourkes are also compliant to ANSI/ISEA Z87.1:2015 as an impact protector (Z87+). Easy to deploy or stow, the new NFPA compliant Bourkes have an increased coverage area of approximately 20% over traditional Bourkes.

To get your NFPA-compliant Bourkes order P/N 10194911 (NFPA-compliant Bourkes Lens and Hardware Kit for MSA Cairns Leather Helmets)³.

N6A Helmet with NFPA-compliant Bourkes

¹ All MSA Cairns leather fire helmets shells are 100% top-grain steer hide.

² Only available on MSA Cairns leather helmets ordered after August 1, 2018.

³ The Bourkes does not affect the compliance of the helmet as shipped from the MSA factory.

Washable Soft Goods for MSA Cairns Leather Fire Helmets

All MSA Cairns Leather Fire Helmets ordered through Assemble-to-Order (ATO) after August 2018¹ offer **only** removable, washable soft goods. Every MSA Cairns Leather Fire Helmet also ships with a **FREE** mesh laundering bag. There are three options available on the ATO: yellow nomex, black nomex or PBI/Kevlar ear cover. Additionally, each of these soft goods is available as a kit, complete with a laundering bag.² *Order an extra set so you can always have a clean one!*

Part No.	Soft Goods Kit Description
10187685	Black Nomex Ear Cover and Liner, Ratchet and Crown Pads, Laundering Bag (for Medium N5A and N6A)
10187686	Black Nomex Ear Cover and Liner, Ratchet and Crown Pads, Laundering Bag (for Large N5A and N6A)
10187688	Yellow Nomex Ear Cover and Liner, Ratchet and Crown Pads, Laundering Bag (for Medium N5A and N6A)
10187689	Yellow Nomex Ear Cover and Liner, Ratchet and Crown Pads, Laundering Bag (for Large N5A and N6A)
10187690	PBI/Kevlar Ear Cover and Liner, Ratchet and Crown Pads, Laundering Bag (for Medium N5A and N6A)
10187691	PBI/Kevlar Ear Cover and Liner, Ratchet and Crown Pads, Laundering Bag (for Large N5A and N6A)

Bronx Bend

Get the historical “rolled” brim style direct from the MSA fire helmet factory. Both the MSA Cairns N5A New Yorker (OSHA compliant) and the N6A Houston (NFPA 1971 compliant) are available with a Bronx Bend (large and medium sizes). All Bronx Bend options come complete with one of three removable soft goods options, and your choice of eye protection¹ (including NFPA-compliant Bourkes).

N6A Helmet with NFPA-compliant Bourkes and Bronx Bend

N5A Helmet with Bronx Bend

Boston Bend

Order your new MSA Cairns N5A New Yorker (OSHA compliant) and the N6A Houston (NFPA 1971 compliant) with the classic Boston Bend, featuring the classic “flat” brim preferred by firefighters throughout New England.

N6A Helmet with Boston Bend (front view)

Boston Bend top view

N6A Helmet with Boston Bend (side view)

Note: All MSA Cairns Leather Fire Helmets with Traditional, Bronx, and Boston Bends are “hand shaped,” including the “bends.” Due to “hand-forming” the bends, no two helmets will be exactly the same.

¹ Removable/washable soft goods are standard on every MSA Cairns Leather Fire Helmet ordered after August 1, 2018.

² The MSA Cairns Leather Fire Helmet washable soft goods are NOT able to be retrofit into leather fire helmets manufactured before August 1, 2018.

MSA Cairns Traditional Helmets

With MSA Cairns, You Get More than You Pay For: 10-Year Warranty¹

We know, as do firefighters, that MSA Cairns Fire Helmets are the most durable products on the market. We back up that claim with a 10-year lifetime warranty that the products will be free from defects in materials and/or faulty workmanship.² When you factor in the quality, ease of maintenance and unique safety features found **ONLY** in MSA Cairns Fire Helmets, it's easy to see why firefighters are **fiercely loyal** to the MSA Cairns brand.

10-Year Warranty and Terms of Sale

MSA Cairns® Fire Helmets

- 1. The Effective Date of this 10-Year Warranty for MSA Cairns Fire Helmets is January 1, 2015.** All MSA Cairns Fire Helmets manufactured on or after January 1, 2015, shall be covered under the warranty. The warranty does not apply to previous or alternative warranties provided with a MSA Cairns Fire Helmet which was manufactured on or after January 1, 2015.
- 2. All MSA Cairns Fire Helmets manufactured between January 1, 2015, shall be covered for the entire lifetime under the previous warranty.**
- 3. Express Warranty:** MSA warrants MSA Cairns Fire Helmets manufactured on or after January 1, 2015, to be free from defects in materials and/or faulty workmanship for a period of ten (10) years from the date of manufacture by MSA. This warranty applies to original assembled components of the fire helmet including shell, respirator, eye protection and accessories. No agent, employee or representative of MSA has any authority to bind MSA to any alteration, representation, or warranty concerning the goods sold hereunder.
- 4. Limited Warranty:** Items designed for normal wear such as reflective trim, ear flaps, goggles, face shields and chinstrap are covered for one year. See "Limited Warranty and Terms of Sale" (3000-115-M2) for warranty details on these products.
- 5. Release of Obligations:** MSA shall be released from all obligations under this warranty in the event that repairs, warranty or modification of the fire helmet is sold by MSA or made by persons other than its own or authorized service personnel, or if the warranty claim results from accident, alteration, misuse, abuse, or normal wear. MSA makes no warranty concerning replacement components, i.e., one that was not part of the original assembly or non-certified accessories, but will agree to the purchase of warranty of manufacturer of such components.

MSA Cairns Fire Helmets meet the current NFPA 181 standard. Testing and training sessions (e.g., "Roll-over" and/or high heat testing) may damage the fire helmet. To avoid such damage, always use an approved helmet cover designed to work with applicable MSA Cairns Fire Helmets. Any heat damage to a fire helmet during testing without an approved cover voids all warranty, repair or replace.

- 6. Exclusion of Remedies:** It is expressly agreed that the Purchaser's sole and exclusive remedy for breach of the above warranty for any fire helmet manufactured by MSA, or for any replacement of a part, shall be repair and/or replacement, at MSA's option, of any component or part thereof that after examination by MSA are proven to be defective. Replacement equipment and/or parts will be provided at no cost to the Purchaser if a defective design is found to be the cause of the defect. Failure of MSA to successfully repair any noncertified product shall not cause the remedy established herein to fail if its essential purpose.
- 7. Exclusion of Accessories:** MSA Cairns Helmets Accessories such as available for purchase by MSA are not part of the certified product and are excluded from the warranty. MSA Cairns Traditional Accessories include but are not limited to: face shields, front cap brackets and Traditional Buckles. See "Limited Warranty and Terms of Sale" (3000-115-M2) for warranty details on these products.
- 8. Exclusion of Consequential Damages:** Purchaser specifically understands and agrees that no consequential damages will be paid to the Purchaser for economic, special, incidental, or consequential damages or losses of any kind whatsoever, including but not limited to, loss of anticipated profits and any other loss caused by reason of the non-occurrence of the goods. This limitation is applicable to claims for breach of warranty, tortious conduct or any other cause of action against MSA. The warranty is in lieu of all other warranties, express, implied or statutory, and is strictly limited to the terms herein. MSA specifically disclaims any recovery of merchantability or of fitness for a particular purpose. In addition, MSA expressly disclaims any liability for economic, special, incidental, or consequential damages in any way connected with the sale or use of MSA products, including but not limited to, loss of anticipated profits.
- 9. MSA reserves the rights to review and update the warranty terms, as needed, to comply with applicable laws or Standards.**

¹10-year warranty applies only to MSA Cairns helmets manufactured on or after January 1, 2015. For details on MSA Cairns Fire Helmet warranties, please see MSAFire.com.

²Limitations apply. See any MSA fire helmet product web page for details at MSAFire.com.

MSA Cairns 1010/1044 Fire Helmets

Offers the most comprehensive impact and thermal head protection system, from top to bottom.

1 Impact Cap

(See page 54 for impact cap replacement part numbers.)

- Fewer components make the new impact cap easier to maintain and clean, as well as upgrade with the Defender Visor
- Defender® Visor automatically installed or enabled—no additional cap or hardware needed. Just order your Defender Visor kit
- Fits head sizes 6-3/8 to 8-3/4
- Designed to accommodate a 2-point or 4-pt chinstrap to help improve helmet retention.
- With the nape arm/speedy button mechanism, the nape strap location is adjusted in seconds—without tools!
- Easy to retrofit into your current 1010/1044 MSA Cairns Helmet

2 Defender Visor

- Retractable eyewear system that stows neatly, cleanly, and securely inside the helmet
- Deploys quickly, even with a gloved hand
- Features quick disconnect for fast, tool-free lens change
- Optically correct lens helps eliminate peripheral distortion
- Available new or as user-upgrade kit
- New impact cap comes with upgrade hardware built right in for significant time and money savings!
- Clear replacement lenses are on the **sos** program

3 Soft Goods

- Simple to replace or take out to launder
- Replacement kits include mesh laundering bag and are available for various combinations of liners and ear laps
- Popular kits are on the **sos** program
- Easy to order part numbers for extra soft goods and kits
- PBI/Kevlar as well as underchin extension, also available for earlaps
- Chinstraps are removable, washable and replaceable*

4 Helmet Shell

- Flexes with impact to absorb energy
- Lower profile than many competitors' helmets
- Fiberglass composite can be painted and is available as the 1010 (eight colors); unpainted shells are available as the 1044 (five colors)

5 Suspension and Retention Systems

- Unique Shell Release System (SRS) helps to maintain impact cap on your head if helmet shell is dislodged
- Exclusive headband interface provides easy adjustment to fit a variety of SCBAs
- Provides a deep, stable fit while allowing enough crown clearance for maximum impact protection
- Standard 6-point configuration

*Available as a replacement part, as well as on any MSA Cairns Fire Helmet manufactured on or after Jan. 1, 2020.

MSA Cairns Traditional Helmets

1010 & 1044

For Structural & Proximity Firefighting

- Two of our most popular MSA Cairns fire helmet models:
 - 1010: painted high-luster finish
 - 1044: unpainted matte finish
- Certified to NFPA 1971 (Structural and Proximity)
- Certified for proximity firefighting (with bonnet, shroud and gold-coated face shield)
- Hat sizes: 6¾ to 8¾

MSA Cairns 1010 (shown with NFPA Bourkes Eyeshield)

MSA Cairns 1044 (shown with Defender Visor)

Features & Benefits

FEATURES	BENEFITS
Impact/Thermal Cap	Provides thermal and impact protection through an impact-resistant polymer liner covered by a high-temperature, energy-absorbing urethane foam
Warranty	10 years¹
Made in the U.S.A	Yes ((Berry Compliant models))
Through-color Fiberglass Composite Shell ² (1044-unpainted/1010-painted)	Maintains color even after taking a beating on the fireground
Available Colors	1044 – black, yellow, red, white, blue 1010 – black, yellow, red, white, orange, blue, pink, green
Retractable Defender Visor (installed or enabled)	Deploys easily when you need it, stores securely inside your helmet shell when you don't. Impact cap comes with upgrade hardware built right in!
Shell Release System (SRS)	Retain your impact cap, suspension system and earlaps if your helmet shell is torn away during a fall or structural collapse
Crumple-Zone Front Holder ³	Designed to collapse on impact to lessen the impact force
Adjustable Nape Height	Three ratchet height positions easily adjusted with the nape arm/speedy button mechanism
Adjustable Headband Height	Helps to provide a perfect fit between your helmet and SCBA mask
Head Size Accommodated	6¾ to 8¾"
Embossed Helmet Brim	Oak vine pattern ties the helmet to 180+ years of MSA Cairns helmet design tradition
D-Ring Helmet Hanger	Fits on large hooks and resists bending
Removable/washable Nomex Chinstrap Options	Removable/Washable in 2pt. or 4pt. Available only in Quick Release Buckle (QRB) and Postman's Slide (PS). See page 36 for details.
ARFF Proximity System Available	Yes

MSA Cairns Modern Fire & Rescue Helmets

660C Metro & Invader 664

For Structural & Proximity Firefighting

- Two most popular modern helmet models:
 - 660C: painted high-luster finish
 - 664: unpainted matte finish
- Sleek, low-profile design
- Certified to NFPA 1971 (Structural and Proximity)
 - Certified for proximity firefighting (with bonnet, shroud, and gold-coated face shield)
 - Hat sizes: 6 $\frac{1}{2}$ to 8 $\frac{1}{2}$
 - Accommodates largest head sizes of any MSA Cairns Fire Helmet

MSA Cairns 660C Metro (shown with Defender visor)

MSA Cairns Invader 664 (shown with Defender visor)

Features & Benefits

FEATURES	BENEFITS
Through-color Fiberglass Composite Shell	Maintains its color even after taking a beating on the fireground
Impact Cap	Provides thermal and impact protection when you need it most
Shell Release System	Retain your impact cap and earlaps if your helmet shell is torn away during a fall or structural collapse
Defender Visor Retractable Eye Protection	Deploys easily when you need it, stores securely inside your helmet shell when you don't
Adjustable Nape Height	Three ratchet height positions to maximize comfort
Adjustable Headband Height	Helps to provide a perfect fit between your helmet and SCBA mask
D-ring Helmet Hanger	Fits on large hooks and resists bending
Removable/washable Nomex Chinstrap	Removable/Washable in 2pt. only. Available only in Quick Release Buckle (QRB) and Postman's Slide (PS). See page 36 for details.

MSA Cairns Jet-Style Helmets

MSA Cairns XF1 Fire Helmets

MEETING FIREFIGHTER NEEDS: BENEFITS OF THE CAIRNS XF1

REDUCED SNAGS

The Cairns XF1 has been engineered as much for comfort and fit as safety. The most obvious feature is what it lacks—the XF1 is brimless. While untraditional, the lack of a brim makes it easier to crawl into tight spaces and retain your helmet.

INTEGRATED ACCESSORIES

The Cairns XF1 offers several optional accessories, like a secondary (ocular) visor, lighting, and communications. All are integrated seamlessly into the design, retaining its sleek profile.¹

EASY TO CLEAN

The Cairns XF1's modular design allows it to be quickly disassembled for thorough inspection, care and maintenance. Plus, the helmet's soft goods are removable, washable and replaceable—all without the use of tools.

LIGHTING THE WAY

This compact light accessory is housed inside the helmet, reducing exposure to heat, flames, and impact. The strategic placement of LED lights on either side of the helmet improves visibility in dark conditions without detracting from others' vision.

PERSONALIZED FIT

Several easy-to-find adjustments can be made enabling the fire helmet fit to be customized to the individual. When it's all said and done, the XF1 doesn't just fit firefighters—it fits most of them comfortably.²

CUSTOMIZED LOOK

The Cairns XF1 is available in four colors, black, white, yellow, and red, and two finishes, matte and glossy, for firefighters to choose a look that fits their style. Front plates, in a variety of colors, black pre-printed and custom printed options, are available.

¹ Accessories are not certified to NFPA; however, their addition to the helmet does not affect NFPA compliance.

² This information is based on Beta trial of 250 participants with various facepieces, including competitor SCBA.

MSA CAIRNS XF1 ACCESSORIES

MSA offers a variety of integrated accessories designed to maximize available headroom while minimizing snag hazards.

MSA Cairns Components & Options

Chinstraps

See P/Ns on p. 53

		
DESCRIPTION	Removable/Washable Chinstrap with QRB and Postman's slide	2-point Black Nomex w/QRB & Postman's Slide

In 2018, MSA Cairns led the industry by offering removable and replaceable soft goods for all structural firefighting helmets. Beginning January 2, 2020, and to maintain alignment with cancer prevention directives recommended by the Firefighter Cancer Support Network (FCSN), MSA Cairns will offer removable, replaceable and washable chinstraps.

Model 660 shown with Chinstrap 10204157

Model N6A Boston Bend shown with Chinstrap 10207044

1044 w/Defender shown with Chinstrap 10204155

Removable/Washable Chinstrap Features

- **Removable/Washable**—The chinstraps are easily removed and replaced so they can be cleaned with other fire helmet soft goods.¹
- **Compliant**—The chinstraps are certified to NFPA 1971-2018 and NFPA 1951-2013 to work on MSA Cairns® Fire Helmets.
- **Shell Release System (SRS)**—The chinstraps maintain the benefit of the Shell Release System (SRS) on the helmets that offer this feature.²
- **Retrofit/Upgrade**—The new chinstraps are easily retrofittable to MSA Cairns Fire Helmets currently in service (manufactured on or before December 2019).³
- **Standard Offering**—The NEW Standard on ALL MSA Cairns Helmets manufactured after January 2, 2020.
- **Ease of Ordering**—With the implementation of the new chinstraps, ONLY chinstraps with Quick Release Buckle (QRB) and Postman's Slide (PS) will be offered.

All MSA Fire Helmets manufactured on or after January 2, 2020, have the new Removable/Washable Chinstraps installed as a standard.

¹ The new chinstraps were washed up to 52 times using the instructions provided in the operating manual.

² SRS is offered on the 1010/44 and 660C/664 MSA Cairns Fire Helmets.

³ For 1010/44 fire helmets manufactured prior to November 2015, a 1010/1044 impact cap replacement upgrade kit will be required; these include the removable chinstrap.

Eye & Face Protection

Eye protection is a required component on all NFPA-compliant MSA Cairns Helmets. MSA NFPA-compliant eye protection options offer the following features and benefits:

- High-temperature options
- Flame-retardant
- Easy donning and doffing while wearing gloves
- Anti-fog coating on both sides of the lens for visibility
- Anti-scratch coating on both sides of the lens for a longer life
- Easy lens replacement

Defender Visors

Replacement P/Ns: p. 55

Defender Visors offer eye protection from dust, dirt, and grit; their exclusive integral design is retractable for the ultimate in compact convenience. Sleek construction allows fast, easy raising and lowering of the visor even with gloved hands. Standard clear and amber Tuffshield visor options are NFPA-compliant. Defender Visors come standard with black nose-bridge pad.

MSA Cairns Fire & Rescue Helmets

Eye & Face Protection

NFPA-Compliant Bourke Eye Shield

The NFPA-compliant Bourke Eye Shield is:

- Available for MSA Cairns Leather N6A,, 1010, 1044 and 880 Fire Helmets on ATOs
- NFPA 1971 compliant
- Side wrapping, with improved coverage compared to Traditional Bourke's
- Fireground-proven, anti-scratch coated, polyarylate lenses
- Lenses are quickly stowed when not in use; easily deployed when needed
- Sturdy metal hardware offers durability under severe fire conditions
- Works with Defender visor or goggles, if additional eye protection is desired
- Available as a replacement kit, complete with lens and hardware
 - PN 10186311 (MSA traditional composite fire helmets)
 - PN 10194911 (MSA leather fire helmets)
- Easy to install—uses the same holes as Traditional Bourke's or shell dimples*

NFPA-compliant Bourkes lenses satisfy NFPA-1971 requirements for eye/face protection and do not require the addition of other eye/face protection.

Replacement P/Ns: p. 55

Faceshields

Replacement P/Ns: p. 55

MSA Cairns
4\"/>

The MSA Cairns 4" Tuffshield offers thermal and scratch resistance. Available for both Traditional and Modern-style Fire Helmets.

MSA Cairns
4\"/>

The MSA Cairns 4" Standard Faceshield is a lower-cost alternative for external visors.

Available on Modern-style Fire Helmets.

The MSA Cairns 6" Gold Faceshield is available on select helmets and is compliant to NFPA 1971 for proximity firefighting ONLY.

All MSA Cairns faceshields come supplied with wing protectors for extra face protection. Wing protectors are made of the same fire-proven material found in MSA Cairns faceshield hardware to provide additional strength at high temperatures.

Goggles

Replacement P/Ns: p. 55

MSA Cairns Firefighter Goggles

Our series of NFPA-compliant firefighters' goggles are certified by an independent test lab to meet the performance requirements of the NFPA 1971, including the test for exposure to 500° F for 5 minutes (Test Method 7.4.4 Heat and Thermal Shrinkage Resistance Test.).

We offer three goggle styles (differentiated by attachment system):

The **Innerzone 2** model has a snap-on/snap-off attachment to structural helmets. The low-profile post design works with all structural firefighting helmets.

**1010/1044 fire helmets only*

The **Innerzone 3** model has a wrap-around strap that attaches to the back of the helmet with two adhesive-backed hook & loop tabs.

The **MSA Cairns 550 Goggle** has a wrap-around strap that attaches to the back of the helmet with a D-Ring fastener.

Front Holders

Standard Front Order Form

Build your own front at <http://webapps.msanet.com/fronts>

Ordering Instructions

Please complete a separate form for each type of front ordered. Save the file as a PDF and return the completed form(s) to fireorder@MSASafety.com. The free version of **Adobe Acrobat Reader is required to use this form.**

Fronts other than those that can be ordered using the choices below are considered custom fronts. To discuss your custom artwork or logo application needs, please call 1-877-MSA-FIRE or speak with your sales representative.

Standard Fronts

Enter your choices in the boxes to the right of each section.

Total Quantity:

1. Front Size
4", 5" or 6"

2. Style Option
Enter style number from **10** to **41**,
or from **150** to **161**

3. Attachment Option
Punch front(-s) or attach to: **L** – Leather Helmet
P – Plastic Helmet or **K** – Mini Front Key Chain
V – Hook and Loop Attachment (*for 4" fronts only*)
N – No holes needed

4. Front Material
L – Genuine Leather, **P** – High-Gloss Patent Leather

5. Front Color Option
Choose one color: **B** – Black, **W** – White, **R** – Red,
Y – Yellow, **O** – Orange, **C** – Blue, **G** – Green,
N – Natural/Brown or **K** – Gold (*patent only*)

6. INTERNAL USE ONLY
NOTE: MSA Personnel, add Vinyl (V) or White Scotchlite™ (S)

7. Panel Color Option
Choose one color: **B** – Black, **W** – White, **R** – Red,
Y – Yellow, **O** – Orange, **C** – Blue, **G** – Green,
K – Gold or **S** – Reflective White Scotchlite

8. Text Font
Choose one text style:
A FULL BLOCK ACCT. **F CASLON ADBOLD**
B RAPHAEL ACCT. **G DEMIAN BOLD ACCT.**
C ALPHA MEDIUM **H ACADEMY ENGRAVED**
D COPPER GOTHIC **I BREEZE SCRIPT**
E GOUDY BOLD ACCT. **J CLARENDON MEDIUM**

Note: FULL BLOCK ACCT. is default.

9. Panel Text Color Option
Choose one color: **B** – Black, **W** – White, **R** – Red,
Y – Yellow, **O** – Orange, **C** – Blue, **G** – Green, **K** – Gold,
S – Reflective White Scotchlite, **V** – Vinyl, **L** – Luminous
or **N** – No printed text

10092445	Updgrade kit w/QRB, PS, Clear Defender, Standard Liner & Yellow Nomex Earlap				■				
10096895	ICA w/QRB, PS, Standard Liner & Yellow Nomex Earlap				■				
10096829	ICA w/QRB, PS, Standard Liner & Yellow Nomex Earlap					■			
IMPACT CAP REPLACEMENT KITS FOR NON-DEFENDER HELMETS									
10152449	ICA w/ Standard Configuration			■					
10185067	Retainer Ring & Breakaway Tabs Kit			■					
M603P	ICA w/ Standard Configuration				■	■			
M610P	ICA Retention Kit (Tabs, Velcro, Screws)				■				
M802P	ICA w/ Overhead Suspension						■	■	

*Replacing the impact cap, as needed, does not affect the manufacture date of the original helmet ensemble. Helmets should be removed from service no later than 10 years from the original date of manufacture, per NFPA 1851 (current edition). Please see the MSA Cairns Owner Manual for additional details on removal of helmet from service based on routine and advanced maintenance and inspection criteria.

**Upgrade kits needed if Defender visor not previously installed on helmet.

Removable/Washable Chinstraps

Globe gear is designed to meet the new challenges you face every day to help keep you safe and healthy throughout your career and beyond.

ATHLETIX™

- New material technology enables all-new athletic design with unique stretch fabrics that allow closer, body-contoured fit to provide unprecedented range of motion with less bulk, more flexibility, and lighter weight.
- PBI® STRETCH fabric with KEVLAR® allows less bulky fit with unprecedented range of motion and flexibility, while providing thermal break open protection.
- DUPONT™ NOMEX® NANO thermal barrier material is thin, light, and flexible.
- 3M™ SCOTCHLITE™ COMFORT TRIM reflective material is segmented and heat sealed to be light, flexible, and breathable.
- GORE® CROSSTECH® BLACK moisture barrier provides breathability in the widest range of environmental conditions, to reduce heat stress.

ATHLETIC FOOTWEAR FOR FIREFIGHTERS.

With a unique cushioned and contoured sole and athletic footwear construction, Globe boots are flexible like your feet, grip like no other, and feel broken-in right out of the box.

SUPRAFLEX™

- Scientific studies have proven that lighter weight and more flexible footwear isn't just about comfort — it's about safety.
- Continuous segmented flex panels make these boots feel like your favorite pair of athletic shoes.
- Recessed pull-on handles are inset on the sides and hidden when not needed.
- Flexible NOMEX® webbing carry loops allow easy carrying when installed in turnout pants.
- Composite safety toe cap, puncture protection, and shank are lighter and far more flexible than steel.
